Dear WAA Members,

Welcome to 2026! As we begin this new year, we are proud to celebrate a very special milestone—the 60th anniversary of the Weatherford Art Association. This landmark year honors six decades of creativity, community, and dedication to the arts, made possible by the artists and supporters who have shaped WAA through the years.

2026 is also an election year for WAA. This provides an opportunity for each member to reflect on their role within the organization. Whether through leadership, volunteering, exhibiting, mentoring, or simply supporting fellow artists, every contribution matters. WAA is strengthened by the involvement, ideas, and energy of its members.

As we honor our past and look toward the future, we encourage you to consider how you can help support and sustain the Weatherford Art Association during this meaningful year. Thank you for being part of our story—and for helping write the next chapter.

Warm regards,  
Kathy Cunning  
President.

"Art is just a series of adjustments...and Life is Art."

This workshop is perfect for those who want to hone their skills in portrait painting using mainly oil, pastel or acrylic mediums.

James has painted and sculpted his way to a very fulfilling niche for himself in the art world. For him, the journey along the way is the meaningful part of life. He sees his journey is in learning how to learn. Today he is a teacher as well as an artist who passes on his experience in art to many seminar and private students across the country. James is mostly a self taught artist but one of the people he gives credit to for most of "the good stuff" he knows about his art is the consummate master artist of Carthage, Missouri, Bob Tommey.

# Ten fun facts about Chandor Gardens

Chandor Gardens, a unique blend of English and Chinese styles in Weatherford, was

created by famous portrait artist Douglas Chandor, features a man-made "mountain," was once home to a shotgun-toting Ina who guarded against armadillos, was abandoned for 16 years after the Chandors died, and was restored by the Bradfords before being acquired by the city, making it a historic gem filled with whimsical fountains and secret garden rooms.

Here are 10 fun facts about Chandor Gardens:

1. Created by a Famous Painter: British-born portrait artist [Douglas Chandor](#), who painted Winston Churchill and FDR, designed the gardens starting in 1936.
2. Original Name Was "White Shadows." Douglas first called his creation White Shadows, a nod to the stark Texas landscape, but his wife, Ina, renamed them Chandor Gardens after his death.
3. A "Mountain" Was Built: Chandor's dream was to build a mountain, so he created Cox's Mountain, complete with a cascading waterfall, a feature inspired by Ohio Governor James Cox.
4. Ina's Shotgun Nights: To protect the garden from pests, Ina Chandor would use her shotgun at night, breaking the Texas silence to deter armadillos.
5. Abandoned for 16 Years: After Ina's death in 1978, the gardens closed and were neglected for 16 years, becoming overgrown before new owners arrived.
6. Unique Fountains Made From Junk: The Dragon Fountain features Coke and 7-Up bottles, marbles, and ceramic tiles, showcasing Chandor's creative reuse of materials.
7. Chinese & English Fusion: The design seamlessly blends traditional English garden elements like pergolas and bowling greens with Chinese features like Moon Gates and Chi-Lin statues.
8. National Historic Landmark: The home and gardens are officially listed on the [National Register of Historic Places](#).
9. Restored by Enthusiasts: Melody and Chuck Bradford bought the property in 1994 and spent years restoring its ponds and landscapes before the City of Weatherford acquired it in 2002.
10. A Secret Garden: The property is known as a "hidden gem," offering intimate garden rooms and winding paths that feel like a secret retreat, even hosting special events and retreats today. Chandor Gardens | Parker County Master Gardener Association

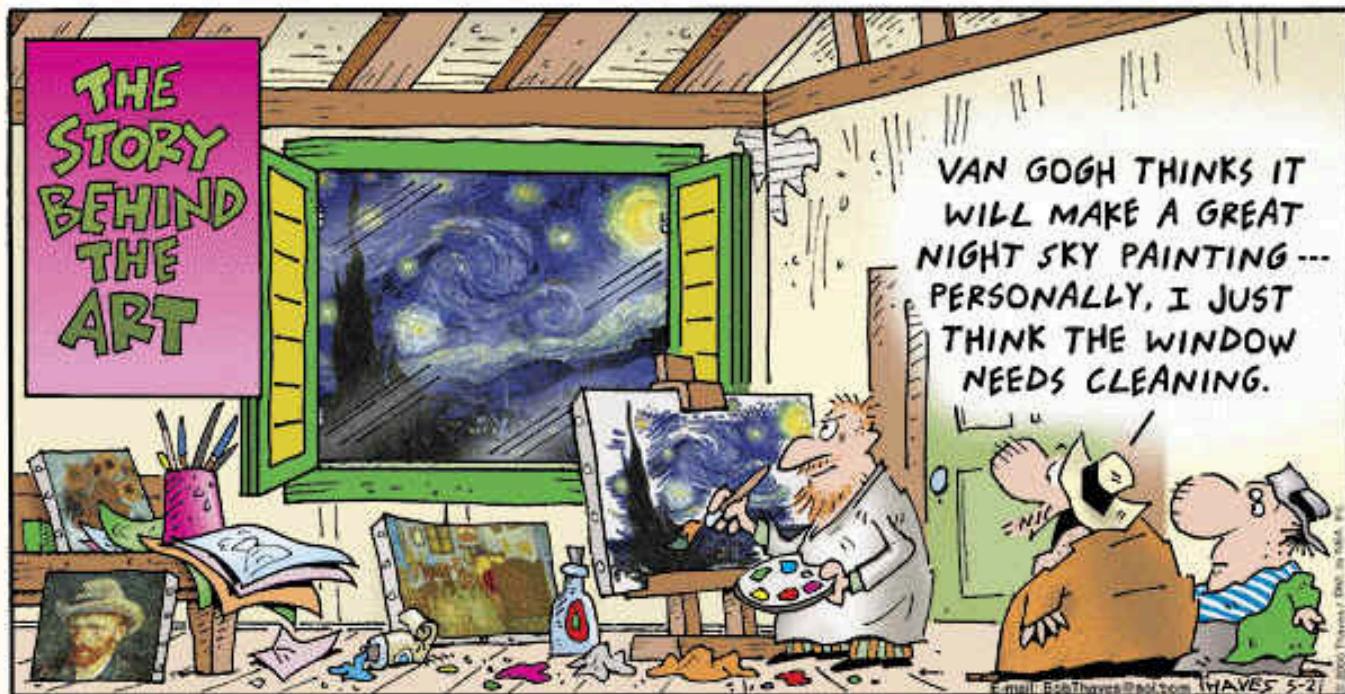

Douglas Chandor's White Shadows. The Gardens were established in 1936. There are approximately 16½ acres, and about 3½ acres are developed.
